

CROCKFORDS

Crockfords is the crème de la crème of Resorts World Genting, and guests will be fascinated by a series of paintings that go beyond floral pictures the moment they step into the lobby. The idea behind the “flower wall” theme aims to capture the petal-soft luxury of dwelling. The theme continues into the elevators which have been transformed to bowers of flowers which transport guests to their rooms on banks of petals. The 115 Crockfords suites are the ultimate in luxury accommodation, constructed with the finest materials and overlooking the stunning natural landscape of rolling hills and tinted clouds. Guests will be enveloped in sheets and bed linen of the highest thread count while the interior is fitted with the famous Calacatta marble. The regular suites are 500 sq ft while the larger suites span 1,000 sq ft. There are also three 2,700-sq-ft suites and 18 signature suites that are designed with three themes namely Technogym (with high-end Italian gym in suite), Tatami (Zen Tea ceremony area in suite), and Mahjong (state-of –the art automatic mahjong table in suite). Coupled with the indoor heated swimming pool, 24-hour room and butler service, Wi-Fi and car valet service, Crockfords takes luxury living to another level.
